Original Change Request

- New document attachment tag
- Attachments listed in Section tables of contents
- No other SpecsIntact attachment handling
- Attachments inserted manually
- Would require 3-4 weeks of effort

SpecsIntact

Possible Enhancements

- SpecsIntact attempts to backup and print attachments at end of Sections
 - Two to three times the work required
- SpecsIntact also supports attachments in the middle of Sections
 - At least double again the required work.
 - May not be feasible
- SpecsIntact also numbers attachment pages
 - Probably not possible
